ALEX MORRISON

Jib, Technocrane, Camera & Hothead Operator

Employment History:

I've worked as a freelance Camera and Jib Operator based in Sydney for over twenty years. My experience spans a wide range of projects — from international documentaries shot in demanding locations to high-end television commercials, feature films, and broadcast television. A full list of credits is available on request. More recently, I've been involved in live events incorporating Virtual Graphics technology and am well-versed in that workflow.

Gear Available:

I can provide a Stanton Jimmy Jib kit with reach options from 6 to 40 feet. The jibs are mounted on wheeled bases for fast repositioning and can also be rigged on dolly track. A third-axis "dutch roll" kit is available, along with a Hothead mount and 60 metres of control cable. For tighter spaces, I offer a Stanton Jib Lite, ideal where the operating footprint is limited.

I can also source any camera and lens package required for your shoot. Additionally, I have a Sony FX6 camera and a set of Sony Cine Zooms available for hire.

Jimmy Jib & Hothead Credits:

Below is a selection of production companies I've worked with as a Jimmy Jib, Supertechno, or Hothead Operator:
