

TIM PITOT

PROFESSIONAL SOUND RECORDIST

With over 15 years of experience, I specialise in capturing high-quality audio for a wide range of programming, including documentaries, commercials, reality shows, and narrative productions. My career spans work in over 40 countries, from the Arctic to the Atacama, providing me with exceptional expertise in navigating diverse and challenging environments.

As a Sound Recordist, I am skilled in designing and managing complex RF systems across multiple zones, ensuring seamless synchronisation across numerous cameras and sound kits, and delivering sophisticated on-set monitoring solutions to meet editorial needs. In addition, I bring proven leadership as a head of department on large-scale productions, adept at fostering collaboration between production teams and audio crew members. My international experience equips me to effectively address logistical, cultural, and technical challenges unique to global productions.

- Australian permanent resident and current I-Visa, dual national British/South African
- Current holder of Working With Children and QLD White Cards
