JACK ROBIN

SOUND RECORDIST

CAREER OVERVIEW

I have over 20 years' experience in broadcast media production. I started with the Seven Network in 1983, moved to the SBS in 1989, began freelancing sound recording in 1994, and today also run a small digital media production company.

EXPERIENCE

As a sound recordist, I have a proven track-record in all manner of current affairs, documentary and reality productions. With over 20 years on the road, dealing with a huge variety of talent, and making sure the production sound rolls smoothly whether in the studio or the middle of a desert, I am prepared for any scenario.

I've worked for all the Australian commercial networks, the ABC, the SBS, NBC New York and CBS, and many and varied production houses. Some recent projects in 2016 include:

Coast Australia Series 3 (Foxtel/BBC)
Olympic Athlete Promos (Seven Network)
Anita Cobby: 30 Years Doco (Seven Network)
Ice Wars - 4 part doco series, (ABC/Northern Pictures)

I have my own full location audio kit, featuring Zaxcom Nomad 10 track mixer/recorder, 5 Zaxcom recording radio mics and a 2 channel recording wireless camera link, multiple audio/time code IFB units, multiple boom mics and FX and music microphones.

I have a current Australian driver's license and passport, and reliable transport. I'm ready and willing to travel within Australia and overseas. I have up-to-date insurance and \$10 million public liability.

By nature I am affable, avuncular, thoughtful, professional and enthusiastic.

PROFESSIONAL REFEREES

Stephen Peters - Producer
